

## Laboratory Technician – New Grad – Summer 2026 Start

**Intended Start Date:** May or June 2026  
**Employment Term:** Permanent, Full-time (40 hours/week)  
**Application Deadline:** February 6, 2026

### Position Description:

PureChem Services, the Canadian production chemical division of CES Energy Solutions, is looking for a motivated, enthusiastic, and organized individual to fill the position of Laboratory Technician. This full-time entry-level position will be located at one of our lab locations: Drayton Valley, Grande Prairie or Nisku in Alberta or Carlyle, Saskatchewan. The position will report directly to the Laboratory Manager.

Responsibilities include, but are not limited to, the following:

- Laboratory testing of field samples
- Set-up of new test apparatus
- Maintenance of laboratory instruments
- Development of new lab processes and troubleshooting of existing procedures
- Analytical testing with equipment including GC, Viscometer, FTIR, ICP, IC, and XRD
- Concise reporting of results as well as managing databases where results are stored
- Quality control testing of raw materials and products
- Support the research and development of new products
- Technical support for our full product range and field staff

This position is an entry level training position. Successful candidates will find opportunities for career advancement including roles in either the sales or technical services side of the organization. Potential future opportunities within our technical services group include specialized opportunities in asset integrity/corrosion, flow assurance, or fluid separation. Sales career opportunities include account management positions that may be based in the field or at our head office in Calgary.

## Laboratory Technician – New Grad – Summer 2026 Start

### Job Requirements:

#### Fundamental Requirements

- Working towards a bachelor's degree in Chemistry or diploma in Chemical Technology or Chemical Engineering Technology
- Confidence and capability in operating assorted analytical equipment with minimal supervision
- Demonstrated intellectual curiosity and a proactive approach to problem-solving, with the ability to commission laboratory equipment, develop and troubleshoot analytical chemistry testing methods
- Working familiarity with Microsoft Office applications including Microsoft Excel, Word, and PowerPoint
- Strong quantitative / statistical analysis skills
- Excellent writing and communication skills, both for internal and client correspondence
- Ability to multitask, adapt, and a strong attention to detail

### What We Provide

- All operationally required training and certifications including WHMIS, TDG, H2S Alive, and First Aid.
- A long-term career development pathway for new recruits that includes a mix of on-the-job training, in-person classroom sessions, and asynchronous e-learning. Training includes both technical and non-technical subjects.
- Competitive salary and benefits package including regular health and dental with a healthcare spending account.

**Driver's License Required:** Yes

**Vehicle Required:** No

### How to Apply:

Please email your application package, including a cover letter, resume, and university transcripts to [hr@purechemservices.com](mailto:hr@purechemservices.com). Include **Lab Technician – New Grad Position** as the subject line of your email. Please indicate your lab location preferences in your cover letter.
