

PureEXEL™

PureEXEL™

INDUSTRIAL CLEANING SOLUTIONS

PureEXEL is a high-performance product line designed for industrial excellence. Whether in oil and gas, manufacturing, transportation, mining, agriculture, or forestry, PureEXEL delivers cost effective solutions tailored to meet the demands of today's most challenging industrial environments

Combining precision with performance, PureEXEL represents the intersection of industrial strength and environmental responsibility.

EXPANDING REACH. DELIVERING RESULTS.

Over the years, PureChem has strategically grown its product lines across Canada, building a strong network of technology centers, satellite labs, and field support hubs. This national footprint enables us to deliver localized expertise with confidence—anchored in consistency, continuous innovation, and proven performance. From our flagship Technology Center in Calgary to satellite labs positioned near key customer operations, PureEXEL is driven by a steadfast commitment to partnership, performance, and proximity—ensuring our solutions are always close to where they're needed most.

CORPORATE OVERVIEW

PureChem Services thrives on delivering customized chemical solutions to our valued customers. Our proven record of producing substantial savings to customers in our fifteen years in the market has set the standard for service deliverables high, just where we like it. PureChem continues to develop new products to meet the ever changing challenges our customers face in their day to day operations.

CES Energy Solutions is PureChem Services' parent company and is a leading provider of technically advanced consumable chemical solutions. Since its initial public offering in March 2006, CES has grown through both organic growth and strategic acquisitions of companies who share CES's approach to customer service. CES trades on the TSX under the symbol CEU and is quoted in the United States on the OTC under the symbol CESDF.

HEALTH, SAFETY, AND ENVIRONMENT

The management of CES Energy Solutions is committed to providing a safe and healthy work environment that protects its customers, employees, the public, and the environment. We will continue to invest significant resources to ensure our products and processes meet the highest standards.

PureEXEL - EXcellence, Efficiency, and Longevity

PureEXEL™

INDUSTRIAL CLEANING SOLUTIONS

WHY CHOOSE PureEXEL?

PureEXEL is more than a product line, it's a complete approach to industrial chemical solutions. Enhanced by localized presence and decades of expertise, we help our partners achieve **efficient, safe, and sustainable operations**.

Technical Consultation:

- » Expert guidance on chemical selection, application, and regulatory compliance.

Customization:

- » Tailored formulations for unique operational challenges.

Analytical & Lab Services:

- » Rapid analysis from field labs across Canada, with five responsive commercial labs for more complex support needs.

Sustainability Commitment:

- » Eco-conscious formulations and optimized dosing strategies.

Contract Manufacturing:

- » Scalable, turnkey manufacturing solutions with strict quality control, rapid turnaround, and full confidentiality to meet complex industrial chemical demands.

With 36 locations, five full-service laboratories, and three manufacturing hubs across Western Canada, PureEXEL ensures rapid turnaround, localized support, and consistent quality.

Our infrastructure enables us to scale with customer needs, **delivering proven performance backed by proximity and responsiveness.**
