

## Technical Services Representative – New Grad Position

**Intended Start Date:** May or June 2026

**Employment Term:** Permanent, Full-time (40 hours/week)

**Application Deadline:** February 6, 2026

### **Position Description:**

PureChem Services, the Canadian production chemical division of CES Energy Solutions, is looking for an energetic new graduate hire to join our organization with one of our technical teams in Northern Alberta, Grande Prairie or Edmonton. The position will report directly to a technical team leader.

Responsibilities include, but are not limited to, the following:

- Support local account managers in deploying solutions to customer challenges
- Product inventory and delivery management
- Support laboratory staff in identifying solutions to customer challenges
- Sample handling, preparation, analysis
- Operating, calibrating, maintaining analytical equipment
- Data entry, record-keeping, database management
- Provide technical services and support to existing customers with the assistance of the product line technical support groups

This position is an entry level training position. Successful candidates will find opportunities for career advancement including roles in either the sales or technical services side of the organization. Potential future opportunities within our technical services group include specialized opportunities in asset integrity/corrosion, flow assurance, or fluid separation. Sales career opportunities include account management positions and customer relations positions.

# Technical Services Representative – New Grad Position
